

As Geographers we will be looking at our local area as well as looking at rural and urban surrounding areas. We will then widen our knowledge to explore the UK and it's 4 countries and capital cities. We will use map skills to look at the 7 continents and surrounding seas. We will then explore Europe more closely and compare it's geographical features with a non-European country.

Years 1 & 2 Spring Term

As Historians we will explore things beyond our living memory, thinking specifically about Christopher Columbus. We will discuss how historical events and people can impact on life after an event as well as comparing changes that have been made in a particular period of time.

As Y1 Scientists, we will learn about five of the groups used to classify animals: mammals, fish, birds, reptiles and amphibians. We will identify the group an animal belongs to by its features and classify animals according to their group. Also we'll learn about the different diets animals eat. Finally we will learn about the parts of the human body and have the opportunity to explore the five senses through a simple investigation. We will also continue to look at season changes in Spring in our environment.

As Y2 Scientists, we will learn about a variety of habitats and the plants and animals that live there, making observations of a local habitat and the creatures that live there. Furthermore, we will research a range of global habitats and how the living things that live there are suited to their environments, and also provides an introduction to the idea of dependency between plant and animal species. Finally, we will learn to tell the difference between things that are living, dead and things that have never been alive.

In ICT we will be learning how to use laptops to make and save our own files.

In PE we will be learning Dance as well as learning skills to be fantastic gymnasts.

In RE we will be thinking about 'belonging' as well as looking at the key values of Judaism.

In Design and Technology we will be thinking about nutrition and doing some cooking projects.

In Art we will be learning different drawing and sketching techniques.

In Music we will practise safe singing as well as practising our playing and performing skills.
